Medical Hints

THE quickest, surest and best remedy

for rheumatism, neuralgia, lumbago,

sore throat, soreness and lameness, is Hag-

yard's Yellow Oil. It quickly cures sprains,

bruises, burns, frostbites, chilblains, etc.

For cramp, colic, gutty, etc., take 10 to

30 drops on sugar, and apply the Oil ex-

ternally also, when immediate relief will

result.

Coming Events.

Counting commences on Wednesday by

a hacking cough, night sweats, pain in the

chest, etc. Arrest its progress at once by

taking Hayward's Peppermint Cure, which

never fails to cure coughs, colds, bronchitis,

hoarseness, etc., and even in confirmed con-

sumption affords great relief.

Dyspepsia and Indigestion.—(Dr. W. & Co.

Excursion, N.Y. writes: "These and ten-

grees of ill are a plague of our age. I have

been a great sufferer from it for years, and

have tried every remedy known to me, but

never found relief until I took your

Peppermint Cure. I have now a perfect

digestion, and my system is in a healthy

condition. My sister has also been cured

with severe headache, but these pills have

been a great relief to her."

Some of the new Indian tales will

probably be named "Sooty Fight-Than-

let's Gun Go."

Why suffer from dyspepsia caused by im-

pure blood, when thousands are cured by

Northrup & Lyman's "Dyspepsia Cure?"

It cures Dyspepsia and all diseases of the

digestive system. It is a perfect

remedy for all diseases of the digestive

system. It is a perfect

remedy for all diseases of the digestive

system. It is a perfect

remedy for all diseases of the digestive

system. It is a perfect

WEDNESDAY, JAN. 26
MONK CARRIERS KILLED.

In a speech which he made at a banquet in Kingston on Thursday night last, the Hon. Mr. Chalmers effectively disposed of two falsehoods to which the first speaker had previously alluded, namely (1) that he had declared in favor of free trade with the United States, and (2) that he and his brother Langens were partners in the same. Mr. Chalmers said that the American was a man of good name and high character, but that he was not a partner in the same. He said that he was a man of good name and high character, but that he was not a partner in the same. He said that he was a man of good name and high character, but that he was not a partner in the same.

AT THE ISLAND.

John Bull looking with longing eyes toward Hawaii.

London, Jan. 25.—There is the very best authority for stating that, even before the visit of King Kalanikou, England was preparing to make a move to take possession of the Hawaiian Islands. It is said that the deal for the sale of the Canadian Pacific Railway will go on.

INDIAN ENFRANCHISEMENT.

The wisdom of the Dominion Parliament in conferring at the instance of the Government—the right of citizenship in voting in the election of members to the House of Commons, upon those of the red men in the older provinces who fulfil the low simple requirements imposed by the law, was strikingly manifested at the banquet recently given to Mr. Wm. P. Duggan, M.P. for Deseronto. Amongst the speakers on that occasion was Samson Green, a Chief of the Mohawks of Tyndinagies, whose fluent utterance, intelligent acquaintance with public affairs, and command of the English language, evidenced the fact that he is as fit to be entrusted with the franchise as any other subject of Her Majesty. Mr. Green may be above the average of his race in ability as an orator, but how many white men who have not received special training are his equals? He may be superior to the average of his fellows in education and in intelligence, but there are, to our knowledge, many Indians on the Tyndinagies reserve who are as intelligent as he. He is as intelligent as Chief Green, and as capable of exercising the right of franchise as intelligently as are others whose possession of the right to a vote in the government of the country has never been questioned.

Sir Richard Cartwright, a Tyrannical Exaction.

A Duty Which He Himself Imposed.

(Hamilton Spectator.)

The *Review* writes: "The duty which he himself imposed is that of raising the price of 18 or 19 cents a gallon."

In the first place the *Review* Time which fails to notice that the duty on oil is raised by Sir Richard Cartwright. It has never been changed by the present Governor. It stands today at exactly the same as it was in 1877. This man has the unblinking eye to go around the country scolding like a jackbo because of what he considers the evil effects of his own action, and, by implication, charging those effects upon the Conservative Government.

It is true enough that "water white" oil is sold in Hamilton at 30 cents a gallon. It is also true that good Canadian oil sells at 15 cents. It is also true that the class oil sells at 10 to 12 cents in the United States. In the fiscal year 1889, the United States consumed 1,000,000 barrels of oil, and the Canadian Government imported into Canada 1,000,000 barrels of oil. How much of this was first-class oil, and how much was crude oil or the cheap "water white" oil? It is not possible to say. But even if it were all "water white" oil, it is manifest that it could not be valued for more than 10 cents at 100 cents a gallon and then retailed here at "10 to 12 cents." Those who discuss this oil question are as dishonest as Sir Richard Cartwright when he makes out his case for the present Government. In the first place, it will be noticed that the *Review* Time compares the highest price in the United States with the price "alleged" in the United States by "people who say they have bought it." It would be as well to say that the price is not to be ascertained from the Government upon the allegations of unknown persons. Then again, the *Review* Time is one thing, and a gallon in the United States is quite another thing. Next the standard of safety is taken, and another thing in some states across the line. Here the fact that a twenty-five degree, it is just as well to let the fact be known: that the people will be able to judge whether or not it will be wise to change the legislation and to let the duty on oil imposed by that metropolitan oil tyrant, Sir Richard Cartwright.

But, just here, let us take a quiet laugh. We all know that if there is one thing in the world worse than a protection tariff, it is monopoly, and the giant monopoly of the United States, whose name has become almost a synonym for oppression, is the Standard Oil Company. Can it really be that a good reformer, in this last decade of the nineteenth century, can be found willing to let the thegilded statesman Sir Richard Cartwright to find relief from the mercies of the Standard Oil Company?

[In comparing prices of coal oil in Canada and in the United States, our readers must remember that the standard of the line Imperial gallon is used, and that is one-fifth larger than the wine gallon, by which coal oil is measured across the line. Hence the rate of duty, as imposed by Sir Richard Cartwright, is 6 cents per wine gallon or 7 1/2 cents per Imperial gallon. This duty requires very much more than a gallon of oil as is sold to consumers in the United States to make a gallon of "water white" that will stand the fire test which was lately imposed by Sir Richard Cartwright for the protection of life and property. A sample from every barrel of oil imported into Canada has to be put through the test by the inland Revenue (there before it can go into consumption). The importers have to import cheaply refined fluid which would endanger their lives and of facts and those of their neighbors, they cannot be allowed to do so. As to Sir Richard, he does not care—he burns gas—Ed. INTELLIGENCER.]

EDITORIAL REVIEWS.

The *Grills* declare their readiness for a general election, but qualify their proclamation to that effect by appeals to the Governor General and to the Senate from Sir John to that effect, and by admissions that they will be beaten by "foul means." "Antient Pistol" was not more valiant in words or more pusillanimous in deeds than are the *Grills* leaders in this connection.

The *Grills* declare for direct taxation, which would impoverish the farmer, the ingenious system, the organ says, it would "prefer to see carried to the utmost limit practicable." The organ says it does not wish its party in this matter, but there can be no mistake in saying that the *Grills* policy of unscrupulous reciprocity, involving a loss of fifteen millions of dollars of annual revenue, means direct taxation.

The total amount deposited in Dominion Government savings bank last year was \$9,664,383, and the total withdrawn during the same year was \$13,723,517. Are the hard times driving the people to set up the small man they had laid out for a rainy day—*Hamilton Times*.

Has it come to this, that the *Grills* party have swallowed their former contention that the large increase in deposits in the post office savings banks under Conservative rule indicated—not proof, but—as the Conservatives held, the steady lack of other profitable means of investment? If, however, the *Times* will take the trouble to inquire, it will learn that the cause of the fact which it states is the lowering of the rate of interest, for which the party responsible contended for several years before it was made.

The *Grills* say that the Conservatives, in sticking to their old policy of reciprocity in natural products, are advocating an impossible project. But what of their own policy? Would the United States accept unrestricted reciprocity? The idea is a mere "castle in the air."

Another N. P. industry has been started. This time it is a soap kitchen in Kingston.—*Hamilton Times*.

This is the only industry in the Dominion which shows a decline under the N. P. Government, and that is the soap kitchen of Sir Mackenzie's domain of office.

The annual report of the New York State assessors says the farms in the State are constantly
